Stan Kurtz
Executive Director

Generation Rescue is proud to accept *Jungle Jam* CD into our *Rescue Vendors* program.

Rescue Vendors are companies that donate a portion of their revenue to Generation Rescue and are hand chosen by Jenny McCarthy and our staff to be included in our new "Let's Go Shopping" section of the Generation Rescue website.

There are no formal commitments on STI or Generation Rescue. In concept, our intention is to simply position our organizations to support and promote each other for the ultimate benefit of families who are suffering with autism and related disorders.

Revenues donated by *Rescue Vendors* on the "Let's Go Shopping" pages of our website will directly fund research, treatment of children, family education, awareness and infrastructure support.

Congratulations on your acceptance into the *Rescue Vendors* program. We look forward to working with you to help bring research, awareness, recovery and prevention to families with autism and related disorders.

My best,

Candace McDonald
Development Director
